

MINUTES OF MEETING AT AYUNTAMIENTO 30TM OCTOBER 2008

Item 1 **Water** What is the current Situation.

Although all paperwork now complete the project has been put on hold for the foreseeable future due to no funding from Valencia.

Item 2 **El Galan** Have you got drawing yet in order to sort out boundaries. No news on the drawings at present but meeting arranged for November 28th

Item 3 **Traffic and roads** When will the problems be resolved .

We have now been told that we have to speak direct to Ricardo (chief of police)

Item 4 **Roundabout at La Canada. On CV95** Nothing has been done despite many promises.

Owner asked for 2,000,000 euro for land but the case is now in the courts to allow for the compulsory purchase, but that is where it will end as far as the town hall is concerned as they have no money unless the residents wish to pay.

Item 5 **Villas Maria 2** General rubbish still not collected

They will only collect from one area which we were told has now been set up in the corner of the approach road.

Item 6 **Quad bikes** Still no sign of the Seprona

They are unable to do anything if they stay on the campo unless the owner makes a complaint or they are seen by the police on public roads.

Item 7 **Manhole Covers.** None have been uncovered

Still in hand but Mayor has said he will chase Jesus to get it sorted out.

Item 8 **Blue hill** Still waiting for Benedicto

Once again this is still waiting for Sergio to sort out

Item 9 **Aldea del Monte** Bottle bank collections

They will speak to contractor

Item 10 **La Canada** No lights to service road

Not their problem it was only a favour that they were put there and they cannot pay for the electric any longer but should the residents wish to pay they can have them reconnected

Item 11 **Inma** When are the talks regarding Sip cards and Padron due to take place. She will inform us within 2 weeks

Item 12 **Plan General at Las Filipinas** What is the current Situation regarding Rustic or Ubana

There are only 3 areas that are still rustic one being the area in front of the School Limonar and two very small areas on the edge of El Galan but at present none of these plots have been built on , and by end of December these will also change from rustic to urban

Item 13 **Mar Azul school.** What is the current Situation

Mayor stated that it is not his decision with regards to the area becoming a school it is down to Valencia ,all he done was to reclassify the land which he insists was private not public as some people think but he does not disagree with Valencia as it is the only school that teaches children with special needs of which there are about 50% of the total who will attend.
